For the attention of Tim Whalley

Inspection Details

Type : Policy
Number : H8L200921-1 Report Nos. : 001-015
Class : Lifting & Handling Plant
Surveyor : Mr R Kidd
Date : 18th May 2017 - 19th May 2017
Location : As above

Dear Sirs

Our Engineer Surveyor attended as above in order to carry out the examination detailed.

Observations and comments made in our reports are for your own consideration as to the extent of repair or other maintenance work which you intend to undertake. The company has no liability for instructions to undertake work on any item other than those which require action to prevent imminent danger.

In accordance with our accreditation procedures, you may reproduce the attached report in whole, or in part for use by yourselves or a third party. The examination methods and procedures used to comply with the detailed particular Statutory Regulations, which are applicable to the Plant, are stated in the method statements documented in Section 13.5 of the Company Quality Procedures.

We trust that you continue to find our services to your satisfaction.

Yours faithfully

HSB Customer Solutions Centre.

Employer (or owner) of premises	BIRTLEY HOUSE GROUP LTD
Address	Birtley House, Birtley Road Bramley, Guildford Surrey, GU5 0LB
1. (a) Type of hoist or lift and identification number and description	Passenger/Goods Lift Hydraulic
(b) Date of construction or reconstruction (if ascertainable)	Carlton Lifts Serial No.: GB4508 Unknown
2. (a) Is this the first thorough examination following installation of the equipment at the above site/location?	No
(b) Were examinations in accordance with an examination scheme?	No
3. Maintenance Are the following parts of the hoist or lift properly maintained and in good working order? If not, state what defects have been found or tests required to confirm continued safe use.	
(a) Enclosure of hoistway or liftway.	Yes
(b) Landing gates and cage gate(s).	Yes - But a suitable landing barrier should be made available.
(c) Interlocks on the landing gates and cage gate(s).	Yes
(d) Other gate fastenings.	Yes
(e) Cage or platform and fittings, cage guides, buffers, interior of hoistway or liftway.	Yes - But replenish oil lubrication pots.
(f) Over-running devices.	No - The engineers upper limit switch must be returned to service to allow safe escape from the car top. N/a
(g) Suspension ropes or chains, and their attachments.	
(h) Safety gear, i.e. arrangements for preventing fall of platform or cage.	Yes - Visual inspection, Rupture valve.
(j) Brakes.	N/a
(k) Worm or spur gearing.	N/a
(l) Other electrical equipment.	No - The pit prop interlock should be returned to service. Car lighting to be returned to full service.
(m) Other parts.	No - Refit missing lift motor room door and associated signage.
4. What parts (if any) were inaccessible?	Enclosed electrical and mechanical parts
5. Repairs, renewals, tests or alterations required to enable the hoist or lift to continue to be operated with safety (if none enter "None") :-	
(a) defects found which give rise to imminent danger and require attention immediately.	None
(b) defects found which could, in time, give rise to danger and require attention or tests required within the specified time period.	None
6. Maximum safe working load subject to repairs, renewals or alterations (if any) specified at 5.	630kg/8 Persons (As marked)
7. Other observations	The auto dialler should be returned to service. Hydraulic ram seal weeping - monitor.

This is to certify that on the date of examination the hoist or lift was thoroughly examined and unless, otherwise indicated above, was safe to operate, and if the first examination following installation, was installed correctly.

Date of Examination: 19 May 2017

Date of Last Examination: 14 Feb 2017

Inspecting Engineer: Mr R Kidd
